Despite receiving not quite average rainfall this winter, some of the later rains and the cool spring buoyed an early burst of growth on the vines. Even with the record-breaking heat as we entered harvest, our vineyard received little supplemental irrigation throughout the summer as our vine canopies matured and slowed without intervention. Harvest 2020 was a bit of a sprint. Starting a tad earlier and ending in early November, this vintage was one for the books which resulted with wines complex in both composition and flavor.
